## Ecuador Counts 16 Dead, 200 Hurt in Rioting

BY THE ASSOCIATED PRESS  
GUAYAQUIL, Ecuador (AP)—Guayaquil counted 16 dead and nearly 200 injured today after two nights of rioting which degenerated Wednesday night into looting. The rioters burned down the headquarters of the security police in this big tropical port city and sacked about 40 stores, two big markets and even an orphanage. About 100 persons were caught with looted goods. They were jailed for trials by martial law decreed throughout this predominantly Indian nation by President Camilo Ponce.

Col. Luis Pinedes, military commander in Guayaquil, said the situation finally was brought under control at midnight with the help of university and high school students. These students had started the rioting Tuesday night in a war against the police.

When the students realized that the mob was engaged in wild looting, they reacted patriotically and gave up their assistance," Pinedes said. "The situation became exceedingly serious, but was finally brought under control."

The renewed rioting grew out of funeral services for six of the eight persons killed in clashes Tuesday night.

## Witness in Boxing Probe Badly Beaten

LOS ANGELES (AP)—The key witness in a boxing probe was severely beaten Wednesday night, and today he told police he thought organized crime had acted in retaliation against him.

The victim, Jackie Leonard, fight promoter of Hollywood Legion Stadium, was asked if he thought the Mafia was behind his beating.

"If you mean organized crime, yes. Knowing Frankie Carbo and what he is, this is just the sort of operation he would be connected with. With guys like this in boxing, nobody who is honest has a chance. The guys who gave it to me are typical. They have no guts," he replied.

Two men attacked Leonard as he was putting away his automobile after a short trip to a neighborhood drugstore, in Northridge, a Los Angeles suburb.

## ABA Head to Address State Attorneys

HOT SPRINGS, Ark. (AP)—The president of the American Bar Assn. said here today that the current preoccupation with science and engineering could threaten the legal profession.

"The legal profession can never exist on mediocrity," Malone declared.

Malone chose "Law, Students and Professional Responsibility" as his subject.

At 40, Malone is one of the youngest lawyers to head the national bar association since it was founded in 1878.

He has practiced at Roswell more than 25 years and was a deputy attorney general of the United States in 1932-33. He is a Pacific War veteran of World War II.

## Woman Claims Cab Driver Kidnaped Her

GARDEN CITY, N.Y. (AP)—The woman owner of race horse Royal Orbit said today Starkweather kidnaped her briefly Wednesday night by a cab driver who wanted to take her out on the town.

Fashionable, Hallina Braunstein of Los Angeles said she had left Belmont Park in the cab for the Garden City Hotel and that the driver turned into an unlighted street.

She remonstrated with him, she said.

"You don't want to go to the Garden City Hotel. You want to go on the town and I'm the guy who's going to take you," she quoted him.

With that, she said, he started up the cab again, but a few minutes later as he slowed down to make a turn she jumped out and ran to a nearby tavern, shouting for help.

The cab driver followed her on foot. A man came out of the tavern and told the driver to go away. He said he wanted \$12 in fare. Mrs. Braunstein said she paid it rather than have any further trouble.

Then she took another cab to the hotel.

## Space Spending Wins Approval of the Senate

WASHINGTON (AP)—An investment of nearly half a million dollars in the race for space supremacy won overwhelming Senate approval today.

This completed passage of a \$466,000 authorization for use of the civilian space administration during the 12 months that begin July 1.

The vote was 81-1, with Sen. Allen J. Ellender (D-La.) opposing. The measure, carrying the exact total recommended by President Eisenhower for the National Aeronautics and Space Administration, now must go back to the House for action on several Senate amendments.

Congress must vote actual funds later in a separate appropriations bill.

Sen. John Stennis (D-Miss.), floor manager for the bill, told the Senate this probably would be the smallest of a series of annual civilian space programs over the next 5 to 10 years. Costs are expected to hit \$2 billion within two years.

The bill includes funds for a wide variety of rockets, satellites, space vehicles and other experiments.

The major items include \$339 million for research and development, about \$58 million for construction and equipment, and some \$94 million for salaries and expenses.

A compromise decision to omnibus programs at a cut-back level was reported in the making.

## Governor All Praise for FBI Ability

LITTLE ROCK (AP)—Gov. Orval E. Faubus last night praised the work of law enforcement officers. He spoke at a stage bar-becue for members of the Arkansas Peace Officers Assn. on the first of its three-day convention here.

Faubus singled out the FBI for tribute.

"The FBI was and is one of the finest groups of people put together for the enforcement of the laws of the nation," Faubus told about 250 sheriffs, judges and other officers.

The governor said FBI agents often had questioned him about government job applicants while he was postmaster at Huntsville and added humorously:

"In those days the FBI asked questions like, 'Now, I hear they're asking questions ABOUT me in Little Rock.'"

But he added that "duty is duty and they're carrying out orders."

The governor said he wouldn't be a peace officer "for anything in the world" because "I'm too glib, an easy mark in many ways."

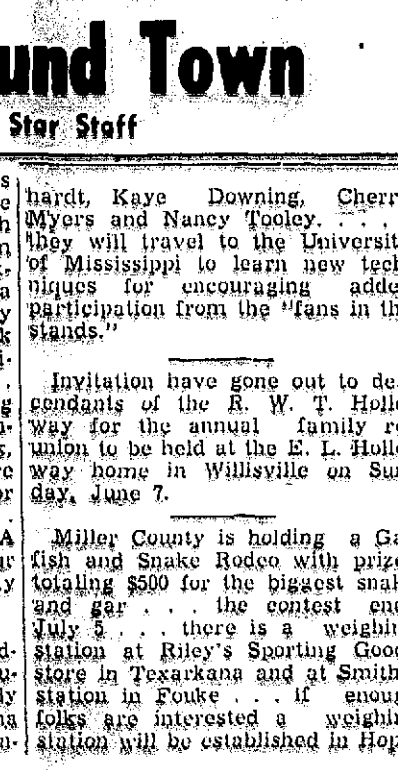

The convention ends tomorrow.

## Telephone Firm Rate Hike Okayed

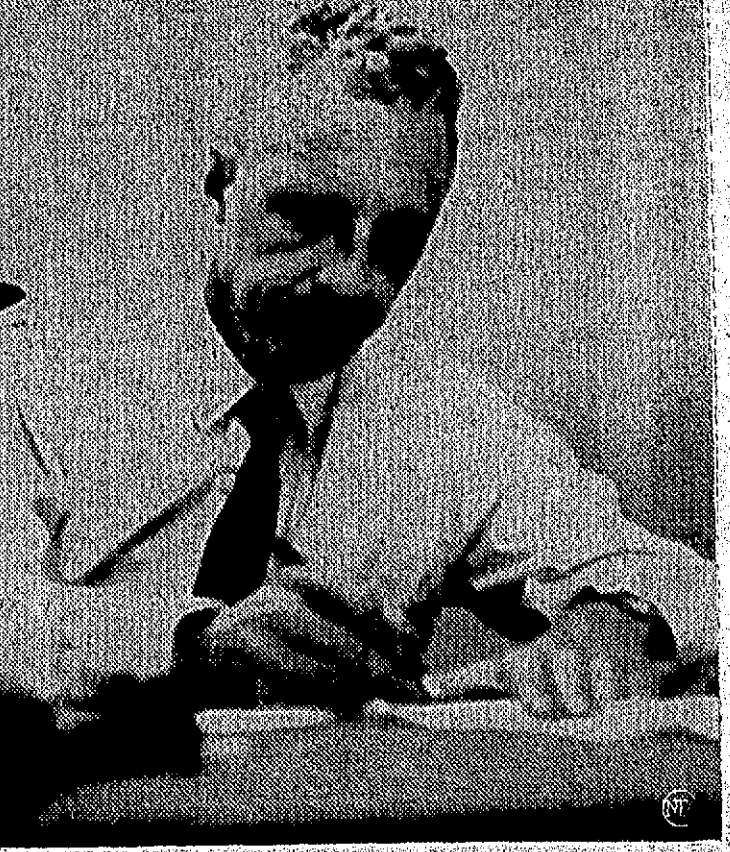

LITTLE ROCK (AP)—General Telephone Co. of the Southwest got approval for a \$203,652 annual rate increase from the Arkansas Public Service Commission yesterday, after the PSC rejected protests from Texarkana, Ark., and Texarkana, Tex.

Retrospective to May 29, the monthly increases range from 25 cents for extension telephones to \$3.35 for one-party business telephones at Texarkana.

The twin cities said the rates discriminated against them. They asked for a new hearing and a suspension of the rates until the PSC had ruled on their protests.

## Space Mice Didn't Make Return Trip

VANDENBERG AIR FORCE BASE, Calif. (AP)—The satellite rocket Discoverer III, which blasted four black mice into space Wednesday, almost certainly re-entered the atmosphere and destroyed itself instead of going into orbit.

The advanced Research Projects Agency made this announcement today 22 1/2 hours after what appeared to be a perfect launching of the 78-foot missile.

"One of the possibilities under investigation," it said, "was that the injection angle of the vehicle was improper, causing it to re-enter the atmosphere several thousand miles from the launch point."

The Air Force wanted them to orbit the earth in a satellite, Discoverer III, for 26 hours, then parachute in their air-conditioned capsule.

However, something went wrong. The two-stage Thor missile roared into space Wednesday as scheduled and sent back radio signals for 13 minutes. Then the signals stopped. The Air Force said it has heard nothing since.

The 78-foot-long projectile was presumed to have burned up on reentering the atmosphere. It was considered highly unlikely that it could have escaped the earth's pull, because of speed factors.

Planes had been poised to try a difficult aerial catch over the Pacific. But officials had given them only one chance in 70 of succeeding.

The mice, pick of their breed, would have been the first creatures retrieved alive from orbit. Two monkeys were fired into space from Cape Canaveral by the Army May 28 but their trip covered only 1,500 miles. They were not intended to go into orbit.

Information from Wednesday's launching will be used in planning the Project Mercury attempt to put man in orbit some two years from now.

At blastoff the mice underwent an acceleration force seven or eight times that of gravity. "This was nothing new to them — they had trained for the flight in test chambers simulating the severe stresses to which they would be exposed."

Strapped on their backs like saddles were tiny radios. These were intended to relay their heartbeat, breathing, temperature and muscular activity back to earth.

Their color — black — was to have shown the effects of any cosmic radiation, based on the degree of graying.

The Thor IRBM first stage and Boostert second stage functioned satisfactorily, the Air Force said.

The missile was last heard from by a telemetrying ship 1,200 miles south of the launch site. The absence of sightings or radar contacts from that time on led authorities to doubt that the missile had gone into orbit.

The Air Force said its next Discoverer will not carry animals but will be strictly an attempt to improve the propulsion and instrumentation of the rockets used in the series.

Wednesday's launching followed four unsuccessful tries. Poor weather and technical difficulties delayed the others.

## Fulbright Raps Ike's Summit Meet Attitude

WASHINGTON (AP)—Sen. J. William Fulbright (D-Ark.) took issue today with President Eisenhower's decision to shun a summit conference unless the foreign ministers at Geneva make "a measure of progress."

The President, in a news conference yesterday, set as his minimum requirement "Russian acceptance at Geneva of Western rights to stay in Berlin until Germany is reunited into a single nation."

"I don't see how the head of any self-respecting government can go to an international conference in response to any kind of thing that can be interpreted as a threat," Eisenhower said.

But Fulbright opposed any advance requirement.

"The mere accomplishment of something in advance should not be the only basis for a summit conference," Fulbright told reporters. He is chairman of the Senate Foreign Relations Committee.

"If a summit conference doesn't hold some prospect of benefit to the Western world, I wouldn't go," he added. "But the fact that nothing may be accomplished in the current session at Geneva should not be the sole reason for not trying to get some accomplishment at a higher level."

Fulbright conceded that the foreign ministers "haven't accomplished anything at Geneva."

"But," he said, "you might make an argument that there should be a summit conference in still another effort to make some progress. I think it is possible had been authorized previously, a plea for accomplishment at the foreign minister level might justify a summit meeting."

## O. L. Smith, 78, Longtime Hope Resident, Dies

O. L. Smith, aged 78, died Wednesday in a local hospital. He was a retired employe of Bruner-Ivory Handle Co., and had lived in Hope since 1933.

Survivors include his wife, a brother, Alvin E. Smith of Corona, Calif.

Services will be held at 11 a. m. Friday at First Baptist Church by Dr. John McElanahan. Burial by Oakcrest will be in Memory Gardens. Active pallbearers: Henry Haynes, Harvey Holt, Hendrix Spraggins, W. C. Bruner, A. A. Albritton and Ray Beck.

## Nike Base Bids Are Delayed

LITTLE ROCK (AP)—Col. M. Jacoby, district engineer, said yesterday the date for issuing invitations for bids on Nike-Hercules missile facility near Blytheville has been indefinitely postponed.

The date was originally set as June 1, with bid openings scheduled June 23.

However, work on the Blytheville plants will continue and bids advertised for later, presumably next month when the new fiscal year begins.

The deferred date does not affect similar facilities planned for Little Rock Air Force Base or Barksdale, La. AFB.

Each of the Nike-Hercules sites will contain 10 buildings and launching sections, located 10 to 2 miles on either side of the base.

## Allies Offer to Reduce Troops Conditionally

GENEVA (AP)—Federal Minister Andrei A. Gromyko reportedly blocked today a Western bid in the Big Four conference for immediate negotiation of a Soviet to Berlin.

He was reported to have received his offer of a guarantee of free use of the supply routes between Berlin and West Germany provided the West accepts his proposal for Berlin.

Western ministers have repeatedly rejected this idea.

The West gave priority to the access issue in the negotiations because this is considered a key problem in resolving the Berlin crisis.

The West, meanwhile, held out the possibility of a reduction in the 10,000-man military forces in West Berlin if the Soviet Union will pledge unrestricted access for traffic on the supply lines between West Germany and Berlin.

Soviet Foreign Minister Andrei Gromyko was reported to have given some signs that the Kremlin may be willing to drop its demand that the Western powers give up their occupation rights in Berlin.

Gromyko, according to informants, has in the last few days shown some elasticity in his attitude, but also highest Western leaders do not know whether they have instructions from Soviet Premier Nikita Khrushchev.

Gromyko has been put under heavy Western pressure to come up with concessions that would in effect clear the way to a summit meeting.

U. S. Secretary of State Christian A. Harter and British Foreign Secretary Selwyn Lloyd are both reportedly to feel that some progress has been made. It is still very tentative, however, and Gromyko could withdraw.

Here are stand-out points in today's American evaluation of the conference as it nears the end of its fourth week:

1. The Western powers are making a little progress in getting Gromyko to move toward some kind of Soviet guarantee of the rights of the Western powers in West Berlin, the major objective of Harter, Lloyd and French Foreign Minister Maurice Couve de Merville. A Soviet pledge would break the back of the Berlin crisis.

2. Western powers have told Gromyko that they would be prepared to put a ceiling on their forces.

3. Harter, Lloyd and Couve de Merville are fully agreed and have, as advised Gromyko in their secret talks, that Western troops in West Berlin do not serve a military purpose so much as the purpose of symbolizing Western protection of West Berlin.

4. Gromyko has been told repeatedly that the Western powers will not give up their basic rights in Berlin and they will not agree to admit Soviet troops to share in the occupation of West Berlin.

## Young Boy Catches an Odd Freak

PINEVILLE, W. Va. (AP)—A 15-year-old boy has nabbed an odd freak—a cat with a winglike growth.

Douglas Shelton, high school freshman at this southern West Virginia community, said he was in the woods the other day when he noticed the animal frod by a dog.

He shinned up and captured the cat, then took a good look at his prize.

The female cat is 30 inches long, has a bushy tail and attractive white fur like a Persian.

Each wing is about six inches long. Each appears to be boneless, but evidently cartilage gives them their shape.

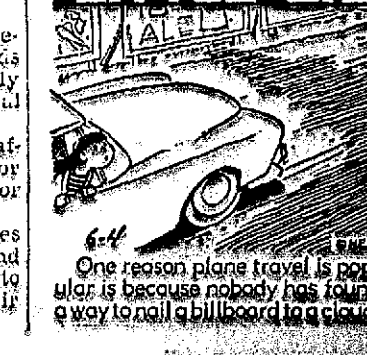

The wings are also a barometer of the cat's temper — she lifts them when angered.

A local veterinarian said he has never heard of such an animal.

## Louisiana Governor Mad at Everybody

By JAMES MCLEAN

CALVESTON, Tex. (AP)—Ray Long, being violent, Louisiana Gov. Earl R. Long is just "mad as hell," he is in a psychiatric clinic and should recover completely in two to three months, attending physicians said today.

This summation came exclusively to the Associated Press from the attending physicians who would not be quoted by name.

The 63-year-old governor, they said, is cooperative enough, is very clear in his thinking and speaking, and is not violent at all.

All they're trying to do now, they said, is to promote his physical health—shattered by Long's sleepless nights and driving determination.

Long, noted for temper tantrums for most of his political life, particularly when he's fighting at political foes, broke down last week after a killing pace trying to be governor for a fourth time.

He was flown here from Louisiana last Saturday and his wife Tuesday asked the court that he be kept in the clinic for his own protection.

Mrs. Long's application to Probate Judge Hugh Gibson claimed her husband was sick mentally and physically.

The physicians said Long had not resisted any questioning. In fact, he has been talking very freely, talking as he normally

## Pickles-in-Orbit Please Space-Minded Appetites

TIMELY as today's headlines, but probably a little more appetizing, are pickles-in-orbit on "nose cones" of gelatin.

By GAYNOR MADDOX

NEA Food and Markets Editor

Dissolve gelatin in boiling water. Add pickle liquid, mix well and chill until slightly thickened. Meanwhile, combine remaining ingredients, mix well. Shape into 6 balls. Turn half of gelatin mixture into 6 individual molds. Top with pickle balls and remaining gelatin. Chill until firm. Unmold. Garnish with additional cream cheese and pickles, if desired.

**Faubus Lashes Blossom's Book**

LITTLE ROCK (AP)—Gov. Orval E. Faubus today charged that numerous statements for a more school Supt. Virgil T. Blossom made about the city's integration crisis were distorted and inaccurate.

Faubus made the remark in comment on Blossom's book "It Has Happened Here," which relates the former superintendent's experiences in the Little Rock dispute.

The governor said some of Blossom's statements were "the greatest distortion and gross misrepresentation of fact that have ever seen in any writing."

The governor devoted most of a news conference to criticism of Blossom, who soon will take a school post at San Antonio, Tex.

## Bell Appeals for Time Extension

LITTLE ROCK (AP)—Southwestern Bell Telephone Co. today asked the state Public Service Commission to extend the time allowed to show why the firm's Arkansas rates should not be cut by three million dollars annually.

Formal hearing on the "show cause" order has been scheduled for June 10.

The PSC issued no immediate answer to the request for an extension beyond this date.

The commission has said earlier it wanted to dispose of the case as soon as possible.

PSC estimates of the proposed rate cut were based on a 1958 report from the Federal Communications Commission which it said showed the five-state Southwestern Bell system earned a 7.7 per cent rate of return. Six per cent is customary for utilities.

Chairman Lewis Robinson of the PSC said he thought the rate of return in Arkansas was higher than the 7.7 per cent figure.

## TELEPHONE TALK

By Vance Smiley, Wire Chief, Hope, Ark.

## IT'S ALL FOR YOU

We have installed a new machine in our local Central Office that is called a Compressor-Dehydrator. This equipment produces dry air, which we will soon start flowing into both our underground and aerial cables.

Moisture entering our cables, due to small holes or cracks has always been one of our main sources of trouble, and this is just another of the many things we are constantly doing to give you better telephone service.

The work involved in getting our cables, here in Hope, under from 4 to 6 pounds of air pressure, and to maintain that pressure, will require hundreds of hours of work and many months of hard work, but "It's all for you!"

## A BIG JOB

As Arkansas industrial development moves ahead, expansion and improvement of telephone facilities have been going on at a terrific pace all over the state.

From 1948 up to the end of 1958, the number of telephones in the state almost doubled. That may give you some idea of what a tremendous job it's been to keep up with the ever-growing demands for telephone service.

In the past 10 years, we've added nearly 300,000 miles of wire in the form of aerial cable and about 370,000 miles in storm-proof underground cable. We've erected 153 new buildings and enlarged 32 others. Gross telephone construction expenditures in the past five years have totaled \$63 million in Arkansas.

All this is part of the demanding job of providing Arkansans with the best telephone service available.

## LOOKING AHEAD

As new industries locate in Arkansas and population grows, we will face even heavier demands than in the past to carry out our part in the state's progress and assure the modern telephone service needed for newcomers' homes and essential to their business.

Careful studies indicate that the state will have over 600,000 telephones by 1975 more than double the current number.

To meet the future communication needs of the state, our studies indicate that it will require the spending of over \$15 million each year for new construction and expansion. This is in addition to regular operating expenses.

The spending of this much money in Arkansas should be a major contribution to the forward progress of the state.

Call by number. It's twice as fast.

Road to This Romance  
Winds Up in Dead End

DEAR DOROTHY DIX: I suppose I'm beyond help or advice but if you can clear up some of my confusion it will be appreciated. Four years ago I began dating Barry. He was in service and I was just beginning my training as a nurse. We loved each other devotedly and planned to be married when I finished my course and he was out of service. One romantic summer night our emotions got the best of us. I regretted it at once but Barry assured me we'd be married in a few months and I was comforted. Instead, he dated another girl the following week and I didn't see him again before he went back to camp. Words can't describe my despair and heartache. On his next leave he and the girl broke up and he came back to me fully penitent. I was overjoyed and took him back only to lose him.

Jewell Moore, Jr. and family.

Miss Marcella Bowden, Miss Ginger Bowden and Miss Mary Charlene Harton drove to T. Bowden to Magnolia, Monday, where he will work this week with the Magnolia office of the Employment Security Division.

Dr. and Mrs. James Shuffield of Springhill, La., were visitors in Hope on Sunday.

The D. W. Hensleys of Benton are visiting Mr. and Mrs. S. L. Murphy.

Mrs. Henry Taylor left Tuesday to visit Mr. and Mrs. Frederick Taylor in Victoria.

Mrs. J. W. O'Brien of Shreveport, La. is the guest of her sister, Mrs. Tom McFarly, and Mr. McFarly.

Miss Sherry Mizell of Little Rock arrived Tuesday night and accompanied Mr. and Mrs. Cline Franks and Miss Judy Franks to Dallas, Tex.

to still another girl in a few weeks. That pattern had continued for four years. He would come home date and please his love for some make plans for marriage and then go with someone else. He's home for good now. I have finished my training and have a good job as a nurse. I can't forget Barry or think of a future without him. I know I should refuse his dates but how can I when I love him so much? I have no trouble getting other dates as I'm considered quite attractive and make friends easily. —Mona V.

DEAR MONA: You're on a dead-end road to romance and the only way you'll ever clear up your confusion is to face the fact squarely. You are probably a joke to Barry, who knows where he can pick up a date any time he wants one. The longer you put off the day of reckoning, the harder it will be for you. You have an absorbing job you can forget, or at least shove Barry into the background, if you try. Better make the effort.

DEAR DOROTHY DIX: A few months ago I acquired my first real boy friend. I'm 10 and fairly pretty but never had a steady. Since we began to date regularly, my mother has pushed marriage. I like the boy and he likes me but there's absolutely nothing in that serious between us. It's only 17. Mother says we can't get together unless we do agree to get married. She accuses us of doing things we don't do, and have no intention of doing. —S.W.

DEAR S. W.: Your mother seems to have so little faith in womankind generally, and you particularly, that she's sure you will get into trouble unless you are married. She'd rather see you unhappy married than continue to worry over you. Of course, she is dead wrong. Pushing you into a young and loveless marriage is the surest way to get you into trouble that is quite permanent.

## Peace Officers in Conference

LITTLE ROCK (AP) — The Arkansas Peace Officers Assn. opened its annual convention here today. Five meetings will continue to Friday.

Speakers will include Gov. Orval Faubus, Little Rock Mayor James M. Glavin, and others.

DEAR DOROTHY DIX: My boy friend is in the Marines. Recently I wrote him a letter explaining that I no longer wished to go with him. A week later he was hurt while on duty and I'm sure it was my fault for upsetting him. I feel terrible about it and now I don't know whether I want to keep going with him or not. I'm sure he still loves me. —Karin

DEAR KARIN: Stop blaming yourself for the accident. Boys don't like emotional upsets to heart as much as girls do. If you want to remain friendly with the young Marine, tell him so. But don't let him tell you to be restricted to steady dating, pretty, since he is away and time hangs heavy for a girl who has no dates. I'm sure he'll understand.

## Eddie Mathews Homers Twice in Braves' Win

By ED WILKS

Associated Press Sports Writer

It seems like ages ago, but remember when the word was that Milwaukee's Braves were chomping on guys? Whether that was a bum rap or not, they're a cool crew of two-time champions, now, chop ping down anyone who threatens their shot at a third straight National League pennant.

Wednesday night, the Braves made it two straight over San Francisco, balling from behind for a 7-4 victory on a pair of two-run homers by Ed Mathews and a solo shot by Hank Aaron that clubbed the second place Giants 3 1/2 games behind.

Mathews now has topped his total to 19 with three in two nights, and Aaron, who was hitless in three consecutive games, now has gone 5-for-7 in the last two, fattening his startling average to .426.

While the Braves were spanking the Giants, third place Pittsburgh remanded with 4 1/2 games of the lead by beating St. Louis 5-3. Los Angeles defeated Cincinnati 5-1, on Stan Williams' (two hit), and Philadelphia beat the Chicago Cubs 4-3.

In the American League, Washington handed Cleveland a fifth straight loss, 4-0. That trimmed the Indians' lead to .003 percent, after points over the Chicago White Sox, who reclaimed second from Baltimore by beating the Orioles 6-1. Fourth place Kansas City, just 1 1/2 games behind, whipped Boston 5-3. The New York Yankees finally stopped Detroit, 6-3.

Mathews parked a 450-foot drive in the eighth off bleachers with a man on to the score 3-all in the sixth. Aaron then doubled and scored on Wes Covington's singled for a three-run inning that fourth ed Jack Sanford (6-6) his fourth defeat in his last five decisions.

Mathews' winning shot came in the seventh off reliever Al Worthington, who then gave up Alton's 15th.

Bob Buhl (4-3), was the winner, although giving way in the eighth when Willie Kirkland homered and the Giants loaded the bases with two out. Don McMahon saved it, striking out Andre Rodgers to end the threat.

Right-handed Bob Friend, (2-7) won his second in a row for the Pirates, but needed Roy Face's perfect relief in the ninth. Bill Mazeroski's two-run triple triggered a four-run eighth that put cardinal left hander Wilmer Mizell (6-1).

John Roseboro belted a pair of homers Wednesday night for four runs against loser Orlando Peña, (3-3). The Reds' only hit off Williams (2-1) were singles by Roy McMillan in the third and Frank Robinson in the fifth.

Ed Bouchee hit at two-run homer, then walked, and scored the clincher for the Phils on Wallop Egan's single in a two-run fifth. Jim Owens (4-0) won in giving up eight hits but only one earned run. Dave Hillman (3-4) was the loser.

## Claims Hearings to Start June 22

LITTLE ROCK (AP)—The state Claims Commission will begin hearings June 22 on claims filed in connection with the deaths of 20 boys in a fire at the Arkansas Negro Boys Industrial School.

The hearings probably will last two to three days, H. M. Friday, clerk-claims auditor, said yesterday.

Fifteen attorneys are representing plaintiffs suing for a total of \$550,000 in damages.

## Basilio Signs to Meet Fulmer

NEW YORK (AP)—Carmen Basilio has accepted terms for a National Boxing Assn. world middleweight championship bout with Gene Fulmer.

The 16-round fight will be held late this summer, with Los Angeles, San Francisco, Salt Lake City and Ogden, Utah, among possible sites, Rothschild said.

Basilio's acceptance virtually knocks out any immediate chance for a meeting between him and Ray Robinson for the New York version of the title.

Robinson, whose status as champion has been under investigation by the New York State Athletic Commission for several weeks, Tuesday was ruled still the champion by that group. He had been stripped of his title by the NBA.

## Can't Assess Plants on Harding Campus

LITTLE ROCK (AP)—A ruling by Pulaski Chancellor Murray O. Reed said yesterday White County could not assess property taxes on a dairy, printing plant and laundry operated by Harding College at Searcy.

Such taxes violate constitutional exemptions allowed to schools, the ruling said.

Harding filed an injunction suit last fall in White County Chancery Court asking for a determination of assessments levied against its property.

Clayton county was created March 4, 1873, from territory taken from Greene and Randolph counties and named for John M. Clayton, a member of the Legislature at that time. The name was changed to Clay county two years later.

## Bud Abbott Is Having Tax Trouble

HOLLYWOOD (AP)—Comedian Bud Abbott, who made a fortune as straight man for the late Lou Costello, says he's playing a mindless duo with the tax collector these days.

"The way it looks now, I'll be in debt until the day I die," the long faced performer told newsmen Thursday.

He said he was broke, unemployed and far in tax arrears.

He's selling his home to pay some of what he owes.

"No matter what I earn," Abbott said, "I still won't be able to get along with the government. What's the use of working? They'll take everything."

Abbott said his financial troubles started three years ago when the government made a tax audit of the last seven years. He and Costello worked together as a team.

"They looked into our capital gains," he said, "and disallowed this and that." He said, "When they slipped us with penalties, fines and interest."

"I'm in the same situation as Joe Louis. I can never get out. If I make a dollar, I owe two for it. And the interest goes up every day."

(Former heavyweight boxing champion Joe Louis once claimed he could never pay off tax arrears claimed by the government because interest being charged on the debt exceeded his income.)

Internal Revenue Service agents refused to comment on the size of Abbott's debt. They said all tax matters are confidential.

Abbott said he had to sell his Ojai, Calif., ranch for \$125,000 and his interest in the backlog of Ab-

bot and Costello pictures at University International for \$100,000.

"I'd keep the tax men happy," Abbott said, "I wasn't enough," he added. "Now the house has to go."

The balding comedian said he had the idea "not at all" how many millions he made during the Abbott-Costello "who's on first" heyday.

Costello died March 4 and left an estate of \$200,000—as much as he often earned from a single movie. His widow said Costello had settled his tax matters before his death.

How did Abbott get in permanent hole to Uncle Sam?

"I don't know," he replied. "I didn't make any bad investments."

I lived conservatively—well, conservatively for showbiz. You know how it is. I ran open bar 24 hours a day at my recreation home when Lou and I were on top.

Funny thing—I still have 5,000 friends all dropping in for movies and a swim in the pool and free drinks.

"Not a one of them around now," he sighed. "And I don't even own the recreation room for the pool any more."

He shook his head and asked: "Where in the world did I flunk?"

There were 934 patients admitted to the Arkansas State Hospital during the first three months of 1959.
